October Facts

- October is the tenth month in the year .October was the 8th in the early Roman calendar. October had 31 days since the time of the Roman Emperor Augustus.
- The first frost usually happens in October in the North temperature zone .Leaves change to their brilliant colours, and begin to fall making the ground a beautiful haven colour. The farmers have to finish harvesting of the crops, but winter isn't here yet. The cold wont stay , in fact we still have warm days ahead.
- Most birds have left the South by the first frost, Sparrows love the weather. They are seed eaters, and eat many weed seeds that would otherwise damaged the next crop.
- Farmers bring in there last of the fall crops and either store or ship them to other parts of the world. In some parts apples, and grapes are still on the trees and vines. Many apples are harvested at the end of October.
- Football uses dominates the scene in October. Hockey also begins its season in October. And the world series will steal some spotlight from other sports.
- Special days : 31st October Halloween and Columbus Day on October 12th
